

# Assembly

**A+B** Top surface +  
Bottom surface

**C** Table base

P&F by Klára Šumová

Made on occasion of *Poison Green*, 6.25.—9.2. 2013, organised by the Czech Center New York.

Czech Center New York,  
Bohemian National Hall  
321 East 73rd Street  
NY 10021 New York  
United States

Curated by Kristyna and Marek Milde.  
1:1 templates for P&F are available for  
download at [www.klarasumova.com](http://www.klarasumova.com)

Graphic design by Dirk Wright  
[www.dirkwright.com](http://www.dirkwright.com)

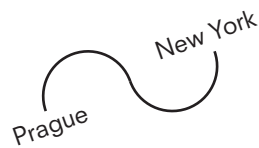

Supported by the Consulate General  
of the Czech Republic in New York,  
Bohemian Benevolent & Literary  
Association and the Vermont Compost  
Company.

The P&F project presents a collection of  
objects made by upholstering/laminating  
cardboard with old fabrics. Specifically,  
it is a shelf, lidded container, and side-  
table—common household objects.

The core concept is to consider material  
availability and greater ideas of expense.

The technique of upholstering/laminating  
the fabric allows room for experiment.  
It promotes an individual approach to  
selecting materials and planning an  
overall look.

## P & F (papers and fabrics) shelf box table

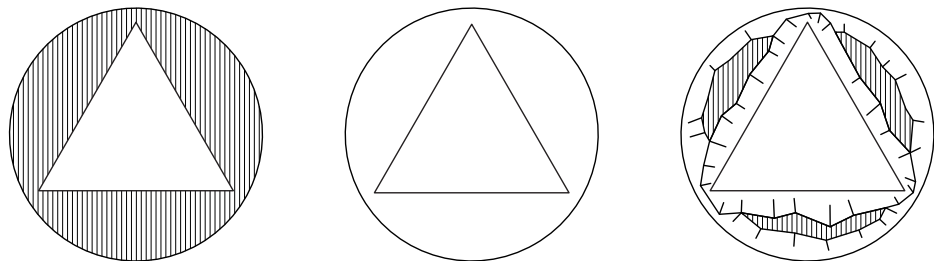

Klára Šumová  
for Poison Green, Czech Center, NY

## Building Instructions

**A 1x** Top surface. Diameter 450mm  
Upholstered top side.

**B 1x** Bottom surface. Diameter 450mm  
Upholstered bottom side.

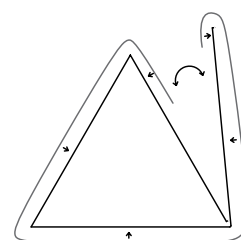

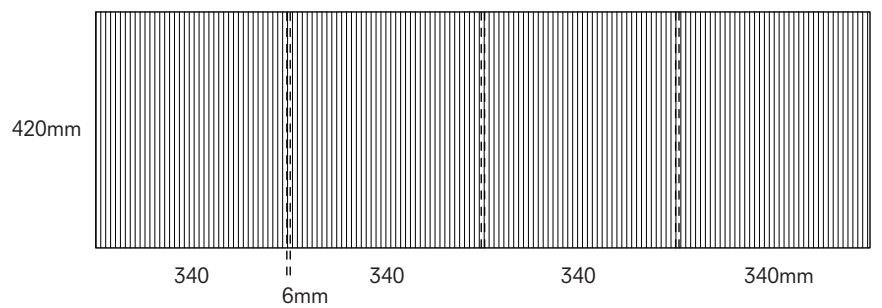

Lines indicate direction of cardboard,  
fold with the structure. Outer lines  
indicate orientation of fabric. Always  
use a larger piece of fabric than the  
cardboard, as folds require excess  
material. Using masking tape helps  
keep upholstery in place while  
working. Ironing fabric before use is  
recommended. Confirm cardboard  
pieces match before gluing. Work  
quickly while gluing. Use spray glue,

fabric glue, or paper glue. For best  
results, use a heavy weight to keep  
cardboard pressed while drying. Make  
individual pieces, then glue together  
when upholstery is dry.

What you will need: leftover fabrics,  
card-board pieces, paint brush,  
scissors, ruler, cutting mat, square/90°  
angle, utility knife, and dull knife for  
scoring folds.

**C 1x** 420x1378mm. Table support/base.  
Fold into triangle. Upholster outside.

Guide to assembly and  
proper upholstering of pieces.
